Career Objective

I'm a young and passionate Front End Web Developer. I'm a Non-CSE student. But I love to code. I believe in hard work. That's why I am always ready to do any task by working hard. I work with ReactJS, Next JS and also use HTML, CSS, and JavaScript as well. I want to work with a professional team sothat I can learn better and can be a good programmer. I am always ready to learn any technology.

Programming Knowledge

- ★ **Expertise :** HTML5, CSS3, JavaScript, ES6, React.js, React-Router, Tailwind CSS
- ★ **Familiar :** SASS, Styled-Components, Redux, TypeScript, Next js
- ★ **Tools :** Github, NPM, VS Code, Chrome Dev tool, Firebase, Netlify

Projects

- ★ **Chat-App** | Website | Github

  This is a real-time chat app. There are some awesome features like as a logged in user you can find out other users and chat with them by clicking the person. If you chat with any friend, he will up to the top of the list, Will show message sending time, Login, register system with firebase and private routes, responsive etc.

  Technology: **Reactjs, context api, react-router-dom, react-icons, react-moment, custom-hook, module css** and **firebase**

★ **Twitter-Clone** | [Website](#) | [Github](#)

A clone project of twitter. There are some features of twitter like user can be logged in with google account, can tweet with image and emojis, can comment and love react to others tweets.

Technology: **Next Js, Next-Auth, Tailwind CSS, Firebase, React-moment, Emoji-mart , React-icons**
